

- **Plea for seed!**

As the Ridgley's Field Wildflower Project continues to develop, we are hoping to add some native seed and would love your help. If you have Ox-eye daisies, Birds Foot trefoil, Yellow Meadow Vetchling or Ladies Bedstraw on your land and can share some seed with us please do let us know. jo.j.podmore@gmail.com

- **BBC lectures**

SEAG is encouraging everyone to consider how we can build a new, better “normal” as we move out of lockdown. What lessons have we learnt about our lives and our environment? How can we harness the good things we have experienced while being totally aware of the suffering and problems that this pandemic has caused?

To help with ideas the BBC is running a series of lectures and programmes starting on Monday 22nd June on “Rethink, Rethink, The Edge of Change” on Radio 4 and Radio 5Live. It is also available on BBC Sounds and on a Podcast.

Great to get us all thinking and encouraging our councillors and MP to act on our behalf.

- **Plant trees by searching the net**

Try this search engine which funds tree planting in response to your online searches: [ecosia.org](https://www.ecosia.org)

- **Naturewatch**

A fellow organisation which is working to support Nature has made this lovely film:

<https://www.youtube.com/watch?v=7cWJqSAKEtA>

...and also has a new website: <https://my.naturehood.uk/>

They are creating a national movement of people supporting nature in their gardens and communities and are well worth having a look at.
